

## Home and Hospital Instruction Disclosure Statement

- A. Jordan School District...**  
*will establish and provide a program of instruction for qualified convalescing or administrative designated students outside the regular classroom. The home and hospital program is not a replacement for the regular classroom program. It is a short-term program designed to alleviate concerns regarding academics and assist in maintaining skills necessary for the student to return to the regular classroom. Because of limited instructional time and the nature of certain classes, it may not be possible to maintain credit in all classes while a student is being served through the home and hospital program.*
- B. The boundary school...**  
will provide an instructor to meet with the student, in an adult supervised environment, a maximum of two (2) hours per week.
- C. The home and hospital instructor will...**
- serve as a liaison between the home and school as needed.
  - bring assignments and instructions for completion from the classroom teacher.
  - return completed assignments and communicate as necessary with the classroom teacher.
  - provide reasonable and appropriate instruction as abilities may permit.
  - determine with the classroom teacher grades to be given for work completed.
- D. The classroom instructor will...**
- provide appropriate assignments or substitute assignments when specific work cannot be completed at home.
  - provide appropriate instructions for completing the assignments in the home environment.
  - communicate with the home and hospital instructor any special needs or requirements.
  - provide direct communication with the home as requested by the home and hospital instructor or parent.
- Grades for work completed during home and hospital instruction will be coordinated between the classroom instructor and the home and hospital instructor.
- E. The parent will...**
- obtain required medical documentation to justify home & hospital instruction.
  - provide responsible adult supervision during the weekly visit. The Home and Hospital Policy does not allow the teacher to visit without an adult present.
  - assist the student with research and study if and when necessary.
- F. The student will...**
- keep scheduled home & hospital appointments.
  - complete all assigned work in a timely manner.
  - communicate concerns, problems or difficulties to parents and the home and hospital instructor.

**Missed appointments cannot be made up and may result in loss of credit.**
